

Constantia Flexibles takes home two prestigious WorldStar Global Packaging Awards 2025

The company strikes again with its award-winning more sustainable packaging solutions, EcoPeelCover and EcoLamHighPlus.

Vienna, January 28, 2025

Constantia Flexibles proudly announces its latest achievement: winning two prestigious WorldStar Global Packaging Awards 2025 for EcoPeelCover and EcoLamHighPlus in the Packaging Materials and Components category. These recognitions reaffirm the company's leadership in more sustainable, innovative flexible packaging.

The WorldStar Global Packaging Awards, organized by the World Packaging Organisation (WPO), are regarded as the highest benchmark in the industry. This year, over 550 entries were evaluated by 51 judges from 50 countries, with Constantia Flexibles emerging as one of the standouts.

Marc Rademacher, EVP Consumer Commercial, shared his thoughts on the milestone: "Winning these awards is a moment of pride for all of us at Constantia Flexibles. They are a solid proof of the hard work, creativity, and passion our teams bring to every project and our commitment to rethink packaging every day. Seeing EcoPeelCover continue to shine and EcoLamHighPlus gain global recognition inspires us to keep pushing the boundaries and continue shaping more sustainable packaging solutions for the future."

Award-winning solutions: Redefining sustainability in packaging

EcoPeelCover: Thinnest lid with superior puncture resistance

EcoPeelCover stands out as the thinnest die-cut lid available, featuring ultra-thin aluminum and coextruded polypropylene (PP) layers. Despite its reduced thickness, it delivers exceptional performance in peelability, corrosion protection, and puncture resistance. Plus, it provides superior barrier protection, safeguarding dairy products from moisture and oxygen while maintaining freshness. EcoPeelCover was also recognized with the German Packaging Award 2024.

Press Release

EcoLamHighPlus: Lightweight barrier for extended protection

EcoLamHighPlus is a mono-polyethylene (PE) laminate designed for recyclability without compromising performance. Combining robust oxygen and moisture barrier properties with lap-seal technology, it ensures long-term product protection while supporting the circular economy. Lightweight and certified for recyclability, EcoLamHighPlus is an ideal choice for dry food, powdered goods, coffee, and snack packaging. All EcoLam grades are certified by RecyClass, confirming their compatibility with advanced sorting and recycling technologies widely adopted at industrial levels throughout Europe.

Receiving global recognition in Milan

The awards ceremony will take place on May 30, 2025, in Milan, Italy, during the IPACK-IMA Show (May 27–30, 2025). Constantia Flexibles is honored to join global leaders in the packaging industry to receive this honor in person.

About

World Packaging Organisation (WPO) is a non-profit, non-governmental, international federation of packaging institutes, associations, federations and other interested parties including corporations and trade associations. Its mission is "Better quality of life through better packaging for more people". WPO joins 84 members, representing 63 countries that includes Full Members, Honorary Members, Affiliate Members and a Regional Federation. More details about the winners: [WorldStar: Winners](#)
